WEB DEVELOPER PROFILE

Web Developer passionate about building responsive, accessible, and meaningful user web experiences. I have 5+ years of experience working in engineering, developing and demonstrating excellent problem-solving skills while working in large cross-functional teams.

PROFESSIONAL EXPERIENCE

Freelance Web Developer

📅 02/2023 - Present

- Collaborate with clients to develop customized websites tailored to their specific needs and requirements
- Troubleshoot and debug software applications to resolve technical issues, ensuring smooth and error-free functionality

Applications Specialist

Xylem Inc

📅 03/2019 - 11/2022 📍 Guelph, ON

- Introduced 100+ new products to our facility by creating bills of material, routing, and training operations
- Resolved 25+ technical inquiries and problems per week for fire pumps per NFPA 20 and HI standards
- Managed fire pump projects for Canada totalling \$10 million+ per year

Sustaining Specialist

Xylem Inc

📅 06/2017 - 03/2019 📍 Guelph, ON

- Developed and improved the fire pump product configurator, quotation, and technical drawing applications saving the company and sales representatives 40 hours a day, while reducing errors by 80%
- Resolved 20+ issues in the assembly or testing of products per month
- Collaborated with operations and production on continuous improvement projects saving the factory 20 hours of weekly labour

Manufacturing Engineering (Weld)

Toyota Motor Manufacturing Canada

📅 05/2016 - 08/2016 📍 Cambridge, ON

- Gained hands-on experience in MIG welding, spot welding, and analyzing defects using chisel tests, and visual inspection
- Led continuous improvement projects that are projected to save over \$250,000 per year in material waste reduction

Engineering Student

Maple Stamping Subdivision of Magna International

📅 01/2015 - 04/2015 📍 Concord, ON

- Coordinated with quality assurance, production, and shipping departments to deliver over 100 pre-production shipments
- Collaborated with forklift drivers to organize and scrap 100+ obsolete dies and updated their location and status in Microsoft Excel reducing the time it takes to search for obsolete dies

PASSIONS

🏋️ Fitness

Calisthenics, Basketball, Volleyball, Flag Football, and over 10 years of competitive bowling

🎵 Dance

Latin Dances, Competitive Hip Hop dance, Zumba, and Breakdancing

EDUCATION

Web Development Immersive Bootcamp

Juno College of Technology

📅 11/2022 - 02/2023 📍 Toronto, ON

PROJECTS

Betting For Value

🌐 <http://bettingforvalue.ca/>

A full-stack project using sports analytics to look for value in betting lines.

Flex Fox Fantasy Federation

🌐 <https://flexfoxfantasy.com/>

A blog for a fantasy baseball league that takes things way too seriously with articles ranging from joke pieces to serious analyses.

Podcast Planner

🌐 podcast-planner-app.netlify.app

Curates a playlist of podcasts to fit the duration of the users' walk and desired genre.

Guess the Movie

🌐 guess-the-movie-app.netlify.app

Gathers popular movies from The Movie Database API and requires the user to guess a random movie from a blurred backdrop.

Mikasa

🌐 mikasapuppy.netlify.app

A website dedicated to my dog with an interactive gallery documenting her puppy years.
